

# Project File Copyright Notice

Any questions? Email us at [support@stickz.co](mailto:support@stickz.co)

## Project Files are not royalty-free!

As mentioned in our "**Copyright License & Agreement**", all of our project files are not royalty-free. They are meant for educational purposes only.

While all presets, samples, and loops inside these project files are 100% royalty-free, the compositions themselves are not. Therefore, repurposing these compositions in any shape or form for commercial and even non-commercial purposes is strictly prohibited, per our terms of use.

Copyright License & Agreement / Terms of Use: <https://stickz.co/copyright/>

## In Plain English

Our project files are meant for educational purposes only. We allow you to get a peek inside these projects to study things like mixing, mastering, arrangement, sound selection, layering, and much more.

What we don't want you to do is simply take a project, export the song, and release it as your own track. That's not allowed. Even if you change it a little, it's still not allowed. Anything considered an edit, remix, rework, or bootleg of our song is precisely that — and not your own original track.

However, all the samples, presets, and loops inside these projects are still our original sounds. So if you like some drums or presets inside these projects, feel free to use them since they are 100% royalty-free.
